**Re: Parent Survey**

Dear Parents and Carers,

Thank you to those of you who could attend our Coffee Morning today. It was great to share and celebrate what our children are learning in school, and what our ambitions are for the children moving forwards. The PowerPoint slides Mr Andrews and I shared are available [on our website](#). It was great to hear positively from families about our use of SeeSaw, which was celebrated by many, as well our 'curriculum maps' so families can see what your child(ren) will be learning that term. The community feel of our school is well-embedded and that nurturing relationship between school and home – including our KITE Values - continues to be strong, which I am delighted about.

Now, we would love to hear from you! As part of our constant strive to improve standards and share information in all areas, we are seeking to know what you and your child think about our school by completing this 'Parent View' questionnaire. The link to complete the survey is: <https://tinyurl.com/bgaparentsurvey>. If you have a paper copy of this letter, you may find this QR code useful to scan from a device:

I look forward to hearing your thoughts about school and endeavour to keep home and school '*Achieving Together*' so positively.

Yours sincerely,

Jamie Stuttard

Principal
